**4416th IS reaches 3,000 days in Saudi**

*Lt. Col. John Preisinger, left, 4416th Intelligence Squadron commander, and Lt. Col. Evans, 4407th Reconnaissance Squadron commander, unveil a picture to commemorate the 4416th's 3,000th day in Saudi Arabia. The unit has been in Saudi Arabia since Aug. 4, 1990, just 48 hours after Iraq invaded Kuwait. The unit was established as the 6975th Electronic Security Squadron and provided around-the-clock intelligence updates to commanders by having two of its seven Rivet Joint aircraft airborne at any given time. After Desert Storm, the 6975th continued its intelligence mission and was redesignated the 4416th in December, 1995. Its new mission was to support enforcement of the United Nations Resolution 688, which imposed two no-fly zones in Iraqi airspace (Operation Southern Watch).*
