@ Developed country (all others are "developing"). # OPEC country. * NATO country. X Not applicable.

0 Nil or negligible (\$2.5 million or less), except that where "Supplier" (other than U.S.) and "Recipient" are single countries, "0" may represent amounts up to \$50 million. (See last line under each region for total amount not distributed by individual recipient.)

NOTE: To avoid the appearance of excessive accuracy, the entries in this table are independently rounded, with greater severity for larger numbers. Totals here are the sum of the rounded components.

- a Comparable totals in Tables III and IV do not agree precisely due to the fact that rounding was done at different stages of aggregation.
- b US arms exports in dollar value terms in Main Tables II-IV, beginning with the *WMEAT 1997* edition, have been revised substantially upward, with new estimates for a major component, commercial arms sales. See "Revision of U.S. Arms Exports Data Series" in *WMEAT 1997*, located on the website of the State Department's Bureau of Verification and Compliance.
- c US arms transfers to the World, Developed, and Developing groupings include transfers to NATO agencies as such and to other international agencies and classified transfers, which are not attributed to individual recipient countries or regions.
- d Includes major equipment purchased by the US Army Corps of Engineers for use in military construction projects in Saudi Arabia, recorded in US accounts as imports to the US. These purchases, not attributable to individual supplier countries, are included under "Others".
