other organizational entities in the Department of Defense (hereafter referred to collectively as the “DoD Components”).

3. DEFINITIONS

3.1. Stability Operations. Military and civilian activities conducted across the spectrum from peace to conflict to establish or maintain order in States and regions.

3.2. Military support to Stability, Security, Transition and Reconstruction (SSTR). Department of Defense activities that support U.S. Government plans for stabilization, security, reconstruction and transition operations, which lead to sustainable peace while advancing U.S. interests.

4. POLICY

It is DoD policy that:

4.1. Stability operations are a core U.S. military mission that the Department of Defense shall be prepared to conduct and support. They shall be given priority comparable to combat operations and be explicitly addressed and integrated across all DoD activities including doctrine, organizations, training, education, exercises, materiel, leadership, personnel, facilities, and planning.

4.2. Stability operations are conducted to help establish order that advances U.S. interests and values. The immediate goal often is to provide the local populace with security, restore essential services, and meet humanitarian needs. The long-term goal is to help develop indigenous capacity for securing essential services, a viable market economy, rule of law, democratic institutions, and a robust civil society.

4.3. Many stability operations tasks are best performed by indigenous, foreign, or U.S. civilian professionals. Nonetheless, U.S. military forces shall be prepared to perform all tasks necessary to establish or maintain order when civilians cannot do so. Successfully performing such tasks can help secure a lasting peace and facilitate the timely withdrawal of U.S. and foreign forces. Stability operations tasks include helping:

4.3.1. Rebuild indigenous institutions including various types of security forces, correctional facilities, and judicial systems necessary to secure and stabilize the environment;

4.3.2. Revive or build the private sector, including encouraging citizen-driven, bottom-up economic activity and constructing necessary infrastructure; and

4.3.3. Develop representative governmental institutions.
4.4. Integrated civilian and military efforts are key to successful stability operations. Whether conducting or supporting stability operations, the Department of Defense shall be prepared to work closely with relevant U.S. Departments and Agencies, foreign governments and security forces, global and regional international organizations (hereafter referred to as “International Organizations”), U.S. and foreign nongovernmental organizations (hereafter referred to as “NGOs”), and private sector individuals and for-profit companies (hereafter referred to as “Private Sector”).

4.5. Military-civilian teams are a critical U.S. Government stability operations tool. The Department of Defense shall continue to lead and support the development of military-civilian teams.

4.5.1. Their functions shall include ensuring security, developing local governance structures, promoting bottom-up economic activity, rebuilding infrastructure, and building indigenous capacity for such tasks.

4.5.2. Participation in such teams shall be open to representatives from other U.S. Departments and Agencies, foreign governments and security forces, International Organizations, NGOs, and members of the Private Sector with relevant skills and expertise.

4.6. Assistance and advice shall be provided to and sought from the Department of State and other U.S. Departments and Agencies, as appropriate, for developing stability operations capabilities.

4.7. The Department of Defense shall develop greater means to help build other countries’ security capacity quickly to ensure security in their own lands or to contribute forces to stability operations elsewhere.

4.8. Military plans shall address stability operations requirements throughout all phases of an operation or plan as appropriate. Stability operations dimensions of military plans shall be:

4.8.1. Exercised, gamed, and, when appropriate, red-teamed (i.e., tested by use of exercise opposition role playing) with other U.S. Departments and Agencies.

4.8.2. Integrated with U.S. Government plans for stabilization and reconstruction and developed when lawful and consistent with security requirements and the Secretary of Defense’s guidance, in coordination with relevant U.S. Departments and Agencies, foreign governments and security forces, International Organizations, NGOs, and members of the Private Sector.

4.9. The Department of Defense shall support indigenous persons or groups – political, religious, educational, and media – promoting freedom, the rule of law, and an entrepreneurial economy, who oppose extremism and the murder of civilians.

4.10. DoD intelligence efforts shall be designed to provide the optimal mix of capabilities to meet stability operations requirements, taking into account other priorities.
4.11. Stability operations skills, such as foreign language capabilities, regional area expertise, and experience with foreign governments and International Organizations, shall be developed and incorporated into Professional Military Education at all levels.

4.12. Information shall be shared with U.S. Departments and Agencies, foreign governments and forces, International Organizations, NGOs, and the members of the Private Sector supporting stability operations, consistent with legal requirements.
