DIRECTIVE

NUMBER 3025.14

February 26, 2013

Incorporating Change 1, November 30, 2017

USD(P&R)

SUBJECT: Evacuation of U.S. Citizens and Designated Aliens from Threatened Areas Abroad

References: See Enclosure 1

1. PURPOSE. This directive reissues DoD Directive (DoDD) 3025.14 (Reference (a)) to update policy and responsibilities for the evacuation of U.S. citizens and designated aliens from threatened areas abroad, in accordance with Executive Order 12656 (Reference (b)) and the memorandum of agreement between the Departments of State (DOS) and Defense (Reference (c)). This directive also cancels the designation of the Secretary of Army as Executive Agent for the repatriation of DoD noncombatants.

2. APPLICABILITY. This directive applies to OSD, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff (CJCS) and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (referred to collectively in this directive as the "DoD Components").

3. POLICY. It is DoD policy that:

a. In the event of an emergency abroad affecting the safety of U.S. citizens, DoD will support the Secretary of State's overall formal responsibility to:

(1) Protect U.S. citizens and nationals, and designated other persons, to include when necessary and feasible their evacuation to and welfare in relatively safe areas.

(2) Reduce to a minimum the number of U.S. citizens and nationals, and designated other persons, subject to the risk of death, harmful health exposures, or seizure as hostages.

(3) Reduce to a minimum the number of U.S. citizens and nationals, and designated other persons, in probable or actual combat areas so that the combat effectiveness of U.S. and allied forces is not impaired.

b. DoD has primary responsibility for preparing and ordering the execution of plans for the protection and evacuation of all noncombatant U.S. citizens and nationals, and designated other persons, in the U.S. Naval Base at Guantanamo Bay, Cuba.

c. In conjunction with the Secretary of State, DoD will prepare and implement plans for the protection, evacuation, and repatriation of DoD noncombatants in threatened areas abroad; integrate such plans into DOS's plans for evacuating non-DoD noncombatants from foreign countries; and assist the Secretary of State in carrying out those responsibilities where militarily feasible and when formally requested by the Secretary of State.

d. As the President's personal representative to the host country, the Chief of Diplomatic Mission (COM), or Principal Officer, is the lead federal official for the protection and evacuation of all U.S. noncombatants, including DoD dependents. Commanders will ensure that DoD actions relating to the evacuation of DoD dependents, nonessential and essential DoD civilian employees, and their families, are consistent with the direction of the COM or Principal Officer of DOS. The authority of the COM or Principal Officer of DOS to order evacuation does not extend to personnel of the Military Services not under COM authority, except as agreed upon between DOS and DoD.

e. The DOS applies the U.S. Government's "no double standard" policy to important security threat information. Generally, if information is shared with the official U.S. community, the same or similar information should also be made available to private U.S. citizens and nationals, to the extent that the underlying threat also applies to them. If information is issued about potentially dangerous situations, DOS evaluates whether the potential danger could also affect private U.S. citizens or nationals living in or traveling through the affected area. The "no double standard" policy also requires private U.S. citizens be given the same evacuation opportunities and assistance as those U.S. citizens who are in country for official U.S. Government purposes, when appropriate and feasible. It is DOS policy to make available to private U.S. citizens, on a reimbursable basis, any U.S. Government-facilitated evacuation option planned for the official U.S. Government community, when appropriate and feasible.

f. DoD will execute the evacuation from threatened areas abroad in close coordination with the Secretary of State as an integral part of the overall DoD response to the danger or crisis that precipitates the withdrawal.

g. Evacuation will generally correspond to protection and evacuation plans established by DOS as follows. It is important to note that diplomatic or other considerations may make the use of certain terms, such as "noncombatant evacuation operation" (NEO), inadvisable and require the use of other terms instead.

(1) Standfast. All military dependents, nonessential DoD civilian employees and their families, families of essential DoD civilian employees, and DoD Dependents Schools (DoDDS) staff and faculty are required to shelter in place and take appropriate precautions to limit harm since immediate movement will involve unacceptable risks.

(2) Stop Movement. DoD issues an order to stop forward movement of military dependents, nonessential DoD civilian employees and their families, families of essential DoD civilian employees, and DoDDS staff and faculty.

(3) Authorized Departure. Voluntary departure of command-sponsored military dependents, nonessential DoD civilian employees and their families, families of essential DoD civilian employees, and DoDDS staff and faculty to an announced safe haven is encouraged and authorized at government expense, with return also at government expense. These government authorized expenses do not apply to local U.S. citizens who do not have service agreements for return transportation to the United States at government expense.

(4) Ordered Departure. Mandatory departure of some or all categories of personnel and dependents (such as military dependents, nonessential DoD civilian employees and their families, families of essential DoD civilian employees, and DoDDS staff and faculty) to designated safe havens is directed by DOS, with implementation of the theater evacuation plan. Historically, DOS accomplishes most ordered evacuations using commercial transportation (scheduled or chartered), without the use of military personnel or assistance. However, DOS may request a DoD-assisted NEO (using DoD organic or chartered transportation assets) based on the nature of the threat or the lack of availability of alternative forms of transportation.

h. Payments or reimbursements to military dependents, DoD civilians and their families under authorized or ordered departure must be in accordance with appropriate provisions of the Joint Federal Travel Regulations, Volume 1 (Reference (d)) and the Joint Travel Regulations, Volume 2 (Reference (e)).

i. To the extent feasible and practical, DoD will use similar support systems and processes regardless of the nature of the evacuation (authorized or ordered, regardless of whether NEO has been declared).

4. RESPONSIBILITIES. See Enclosure 2.

abroad. In a foreign area; outside the United States, its territories, or possessions.

evacuation. Withdrawal from a threatened area. Evacuation normally consists of four phases:

Departure (whether authorized or ordered; may or may not include transportation provided or arranged by the U.S. Government; includes but is not limited to NEO).

Safe haven reception (repatriation, if at a U.S. location).

Safe haven support.

Return to the evacuated area.

noncombatants:

U.S. citizens who may be **ordered** to evacuate by competent authority include:

Civilian employees of U.S. Government agencies and their dependents, except civilian employees of U.S. Government agencies and their dependents, who are legal residents in the country concerned, but have expressed the willingness to be evacuated.

Military personnel of the U.S. Military Services specifically designated for evacuation as noncombatants.

Dependents of members of the U.S. Military Services.

U.S. (and non-U.S.) citizens who may be **authorized** or **assisted** in evacuation (but not necessarily ordered to evacuate) by competent authority include:

Civilian employees of U.S. Government agencies and their dependents, who are legal residents in the country concerned, but have expressed the willingness to be evacuated.

Private U.S. citizens and their dependents. (Note: Private U.S. citizens cannot be ordered to evacuate.)

Military personnel and dependents of members of the U.S. Armed Forces outlined in subparagraph a(3), short of an **ordered** evacuation.

Designated others, including dependents of civilian employees of U.S. Government agencies and their dependents, except civilian employees of U.S. Government agencies and their dependents, who are legal residents in the country concerned, but have expressed the willingness to be evacuated; military personnel of the U.S. Military Services specifically designated for evacuation as noncombatants; and dependents of members of the U.S. Military Services, as prescribed by DOS.

NEO. As used by DOS, an ordered departure from a threatened area abroad that is carried out with the assistance of DoD (as opposed to ordered departures that do not require DoD assistance but are carried out using commercial or chartered transportation). DOS may declare a NEO based on the nature of the threat or the lack of availability of alternative forms of transportation. It is important to note that diplomatic or other considerations may make use of certain terms (such as “NEO”) inadvisable and require the use of other terms instead.

repatriation. The procedure whereby U.S. citizens and their families are officially processed back into the United States subsequent to an evacuation. Evacuees are also provided various services to ensure their well-being and onward movement to their final destination.

safe haven. Designated area(s) to which noncombatants under the U.S. Government's responsibility may be evacuated during an emergency. A location within or outside the United States to which noncombatants are authorized to travel for the purpose of temporarily remaining there until they are authorized to return to the location from which evacuated, or until they are authorized to travel to their final destination. Safe havens are normally designated by DOS, in coordination with DoD.

threatened areas. Includes areas facing actual or potential danger from natural or manmade disaster, civil unrest, imminent or actual terrorist activities, hostilities, and similar circumstances, as declared by competent authority.

WLG. An organization consisting of members of DOS, DoD, and other relevant agencies, chaired by a representative of DOS, which has basic responsibility for the coordination and implementation of plans for the protection and evacuation in emergencies of persons abroad for whom the Secretaries of State or Defense are responsible. The representatives on the WLG are the points of contact for their departments on all matters pertaining to emergency evacuation planning, implementation of plans, and coordination of repatriation activities with the Department of Health and Human Services.
