

Improves the infantry soldier's capacity to engage and defeat defilade personnel targets.

### DESCRIPTION AND SPECIFICATIONS

The XM25 Airburst Weapon system is the single barrel air-bursting munitions component of the XM29 Integrated Airburst Weapon System. It fires 25mm air-bursting munitions out to 500-meter range point targets or 700-meter range area targets. The XM25 incorporates a target acquisition fire control that integrates powered direct view optics, thermal sighting, an electronic compass (bearing, tilt, cant), a laser rangefinder, a fuze setter, a ballistic processor, and an internal display.

The total system weight is lighter than 12 pounds. The XM25 will provide the lethality upgrade for the Land Warrior program.

### PROGRAM STATUS

- **Current** Development ongoing

### PROJECTED ACTIVITIES

- **3QFY04** Government developmental testing begins
- **3QFY05** Milestone B
- **4QFY08** Milestone C
- **2QFY10** Full-rate production decision
- **4QFY10** First unit equipped

### CONTRACTORS

Alliant Techsystems (Plymouth, MN)  
 Brashears LP (Pittsburgh, PA)  
 H&K (Oberndorf, Germany)

### INVESTMENT COMPONENT

Modernization

### ACQUISITION PHASE

- Concept and Technology Development
- System Development and Demonstration
