### MISSION
Provides a mobile, variable reach, rough terrain forklift (RTFL) capable of handling all classes of supplies.

### DESCRIPTION
The All Terrain Lifter Army System (ATLAS) is a C-130 air-transportable, 10,000 pound-capacity, variable-reach RTFL. ATLAS supports transportation, quartermaster, ordnance, missiles and munitions, engineer, aviation, and medical Army units. ATLAS’ cross-country mobility allows it to support the Brigade Combat Teams, and it is a critical asset supporting an expeditionary Army.

ATLAS is a military-unique vehicle: commercial forklifts cannot meet military requirements. It is capable of lifting 4,000 pounds at a 21.5 feet reach, 6,000 pounds at 15 feet, and 10,000 pounds at four feet. ATLAS is equipped with two interchangeable fork carriages: a 6,000-pound carriage for stuffing and unstuffing standard Army pallets with 24-inch load centers from 20-foot containers weighing up to 6,000 pounds; and a 10,000-pound carriage for handling loads weighing up to 10,000 pounds at 48-inch load center (Air Force 463L pallets).

ATLAS is a key component of the Army’s Container Oriented Distribution System. The ATLAS II is an Environmental Protection Agency Tier III-compliant ATLAS with improved reliability, performance, survivability, and transportability. ATLAS I and ATLAS II systems are used to handle all classes of supply and are essential to the deployment of a continental U.S.-based Army and to the sustainment of a deployed force.

Crew survivability is being addressed in accordance with the Army’s Long Term Armor Strategy.

### ATLAS Features:
- **Length:** 27.02 feet
- **Width:** 8.35 feet (ATLAS II is four inches narrower)
- **Height:** 8.92 feet
- **Weight:** 33,500 pounds
- **Power train:** 165-horsepower Cummins diesel engine; Funk 1723 PowerShift (three-speed forward and reverse) mechanical transmission

### SYSTEM INTERDEPENDENCIES
None

### PROGRAM STATUS
- **2QFY07:** ATLAS II contract award; ongoing production and fielding of ATLAS I

### PROJECTED ACTIVITIES
- **Continue:** Fielding to units

### Cruising range:** 10 hours of operation before refueling
- **Road speed:** 23 miles per hour
- **Force protection:** Integrated armor
